## EXPERIENCE

### Director, Information Technology

Polartec, LLC 2002 – 2019 Andover, Ma

- Created and executed comprehensive 3-year technology roadmaps for global business / manufacturing operations
- Implemented systems throughout the organization including multi-lingual, multi-currency ERP system for use at a facility in China and Tennessee, Salesforce.com, SaaS HCM, and all within scope, budget and schedule
- Reduced the operating budget from \$11MM to less than \$3MM by streamlining current processes and eliminating redundancies, over a multi-year initiative

### Application Development Manager

Polartec, LLC 1999 – 2002 Lawrence, Ma

- Designed and implement an RF system that was credited with improving manufacturing processes and warehouse productivity as well as overall inventory accuracy
- Managed outsourced web-development projects improving communication to both customers and suppliers, sourced several modifications to Salesforce.com to enable salesforce to quote more accurately, quicker and understand factory capacity
